

President Report: February 2020

It is with great pleasure I announce Redlands Coast Chamber of Commerce (RCCC) has been awarded an agreement with the State Government to form a Regional Jobs Committee (RJC). The purpose of the Committee will be to bring together local industry leaders, training providers, employers and Council to identify key areas of employment growth and local training, skills and workforce development needs in Redlands.

In 2020, RCCC is focused on Championing Redlands Coast, working closely with government, industry and community to nurture a long-term vision for our City. The RJC initiative gives RCCC a platform to ensure our community is adequately supported and will complement our already successful program of events and workshops.

Be sure to head to our BRAND-NEW website, www.redlandscoastchamber.org.au, to check our Calendar and I look forward to personally seeing everyone at one of the many events and workshop we have planned in February alone!
